WORK EXPERIENCE

JUNIOR SOFTWARE DEVELOPER

Halkbank Istanbul, September 2013– May 2014

- Development and implemented software solution by C# based on client requirements – Education on SQL database
- Developed communication ability and be aware of bank's software infrastructure

JUNIOR SOFTWARE DEVELOPER

Pegasus Airlines, September 2014 – November 2018

- Design and creates software solutions to solve main points for various clients
- Linux, Azure, SQL – Database management
- Python Backend development – Selenium

YEDITEPE UNIVERSITY ASISTANCE

May 2015 – November 2018

- Development and implemented machine learning techniques
- Lab works – Project development in the field of ML
- Asist and help professors –Tensorflow, Keras & Neural Networks

SOFTWARE DEVELOPER

Instituto de Biomedicina de Valencia, January 2022– January 2024

- Development and implemented software web application by Flask and Django
- Establish the connection between Database and Django
- Knowledge about Python, DataTables, HTML, CSS, Javascript, JQuery

CERTIFICATION PROGRAM

January 2024– April 2025

- Learn Red Hat Linux & CentOS: Linux Server Admin or Linux Administrator Program
- Python 3: Deep Dive certification program
- Implemented open source software– TensorFlow for Deep Learning. Coded ML, NLP, NN, Computer Vision and Data Analysis by Pandas&Numpy
- Generative AI, RAG, Large Language Models and Agents

AREAS OF EXPERTISE

- Advanced C and C# Language
- Python Language
- HTML5, CSS, Javascript
- Django & Flask Web Frameworks
- Tensorflow, Pytorch, PyCharm
- Neural Network, Machine Learning – RNN, VGG, LSTM, LLM, Chatbots, NLP
- Azure, AWS

EDUCATION HISTORY

YEDITEPE UNIVERSITY

Bachelor of Science in Computer, 2010–2015

- Taking up general courses in computer science to broaden skills
- Digital Circuit, built a simple coffee machine, VR object recognizer, GUI design – Library Assistant
- Player of the University Basketball Team
- Erasmus student at Universitat Politècnica de Valencia for six months in 2013–2014

YEDITEPE UNIVERSITY

Master of Science in Computer, 2015–2018

- Academic Excellence in Neural Network and Machine Learning
- Published a paper on Computer Architecture and Machine Learning Techniques – Presented paper in Takayama, Japan

UNIVERSITAT POLITÈCNICA DE VALÈNCIA

Master of Science in Artificial Intelligence and Image Processing, 2023–PRESENT

- Academic Excellence in Artificial Intelligence and Machine Learning
- Taking up general courses in computer graphics, natural language processing, AI, VR and NN
- Implementing projects on face recognition, biometric apps

OTHER SKILLS

- Education of piano and guitar in state conservatory – Theater Performer
- Amateur basketball player and runner
- E-commerce website on clothes
- Language education at Bournemouth Language Academy
- Advanced english language proved by IELTS
